EDUCATION

THE GEORGE WASHINGTON UNIVERSITY, School of Business	Washington, DC
Master of Science , Information Systems Technology	<i>December 2026</i>
Cloud Foundations, Web development, IT Project Management, Information Systems Analysis and Design	
CHINHOYI UNIVERSITY OF TECHNOLOGY, Graduate Business School	Chinhoyi, Zimbabwe
Master of Science , Big Data Analytics	<i>December 2024</i>
Project Management Analytics, Business Intelligence, Internet, Simulation and Modelling	
MIDLANDS STATE UNIVERSITY, Faculty of Business Sciences	Harare, Zimbabwe
Bachelor of Commerce, Honors , Information Systems	<i>December 2022</i>
Operating Systems, Data Communications and Networks, Computer Security	

CERTIFICATIONS & TECHNICAL SKILLS

Certifications:	Microsoft Certified- Azure Data Fundamentals, Azure Fundamentals, Azure Administrator Associate
Technical Skills:	Cloud Platforms: Azure, AWS Infrastructure as Code: Terraform, GitHub Databases: MySQL, PostgreSQL Scripting and Automation: PowerShell, Python, Microsoft Graph Virtualization and Storage: Hyper-V, VMware, SAN Server Management: Windows Server (Active Directory, DNS, DHCP), Microsoft SQL Other Tools: Git, Excel, Project Management Tools, Databricks, Google Colab

EXPERIENCE

ZIMBABWE PLATINUM MINES	Mhondoro-Ngezi, Zimbabwe
<i>Cloud Infrastructure Engineer</i>	<i>September 2022 – January 2025</i>
- Implemented Kubernetes-bases deployments, improving deployment speed by 35% - Managed Azure Virtual Machines on Windows and migrated over 25 workloads to Azure, reducing infrastructure costs by 20% - Planned and documented Windows Autopilot deployment, enrolled over 300 devices while reducing device provisioning by over 40% - Managed overall IT day to day operations resulting in 20% reduction on infrastructure costs, 20% improvement on system performance and 85% end-user satisfaction - Managed identity governance, conditional access and MFA implementation across the organization securing over 3000 user accounts and reducing unauthorized access by over 90% - Worked with Office 365 Directory Synchronization tools (DirSync), Microsoft Azure Directory Connect tool (AD Connect) successfully syncing 6000 directory objects with 99% synchronization accuracy - Designed and managed Azure Virtual Desktop for 180 remote employees and reducing the remote access latency by 30% while improving the remote access connection rate to 99.5%	

- Managed and maintained on-premises network, firewall, switches and routers in 7 mining divisions achieving 98% network uptime for automation mining activities at Mupani Mine and 99.5% for all other activities.
- Planned and implemented migrations across all platforms, including from on premises to the cloud.
- Monitoring Azure Resources and assist with performance, security across over 100 subscriptions while optimizing costs by 30% annually

PROJECTS

- **Inventory Management System** – Designed a database-driven inventory system for boutique retailers, enabling real-time stock tracking and automated restocking alerts. (The George Washington University, 2025)
- **Cloud-Based Health Information System** – Built a HIPAA-compliant cloud platform for Sibley Memorial to streamline patient record management. (The George Washington University, 2025)
- **Predictive Maintenance Model** – Applied machine learning to predict trackless mobile machinery failures, improving uptime and maintenance scheduling. (Zimbabwe Platinum Mines, 2024)
